

Winning Moves from CHESS...

For OSHA's Grant Program

Minnesota OSHA Consultation offers a Safety Grant Program for the purchase of safety-related equipment. The Safety Grant Program can provide up to \$10,000 in matching funds. Because of the demand for grant money, OSHA may limit the awards to less than \$10,000.

CHESS has prepared over 200 grant applications in Minnesota, helping our clients receive over \$1,000,000 in grant funds through this OSHA program!

How can we help you?

We can:

- ▶ Suggest projects to improve your employees' safety at work.
- ▶ Advise you on what projects may be eligible for a grant.
- ▶ Do the on-site survey that is required by OSHA for the grant, to show the need for the equipment.
- ▶ Show you and OSHA how the project will help reduce hazards to your workers.
- ▶ Help you identify vendors and obtain bids.
- ▶ Write the grant application for you.

To be eligible for the grant, you must have been an employer in Minnesota for at least two years, carry Workers' Compensation insurance, and be prepared to complete the project within 120 days of the execution of the grant contract. In addition, you must not have already purchased the equipment.

*You don't have to take our word on our success.
